Biometrics is, literally, “measurements of life”. They consist of *“automated methods of identifying or verifying the identity of a person based on one, or more, physiological or behavioral characteristic(s).”*

VoiceVantage

Biometric Voice Verification Technologies

FOR IMMEDIATE RELEASE

The World’s Premier International Financial Services Institution Increases its VoiceVantage™ Enrollment by Forty-six Percent

Boston, Massachusetts. November 14, 2015) THC Technologies Corp a private corporation engaged in the global biometric solutions market, today announced it has experienced a further validation of its VoiceVantage™ voice verification software within the international financial services market.

THC CEO Frances Lynch said, “THC’s premier international financial services client has increased its VoiceVantage™ enrollment by forty-six percent.. THC provides the core proprietary voice verification solutions Partners deploy to secure software applications, often at military grade, for multiple security markets including the international financial services sector. THC and its Partners market voice activated solutions that advance client’s cyber security capabilities, increase client satisfaction and enhance organizational resilience.”

Tomas T. Wilkerson, THC’s VP of Marketing concurred saying, "THC is the obvious choice for our Partners and clients as they address today’s secure communication challenges. Our advanced security products in combination with our Partner’s expertise offer innovative solutions positioning us to capitalize on the substantial financial security market opportunity worldwide.

Organizations in public education, financial services, healthcare, government and many other industries maximize performance and provide investment protection because THC and our partners deliver complete best-of-breed voice authentication solutions. We focus on designing, developing and deploying voice solutions with our partners sharing the common goal to create best-of-breed hardware and software configurations on which to deploy their industry specific solutions.”
