Biometric Voice Verification Technologies

FOR IMMEDIATE RELEASE

World’s Premier International Financial Services Institution Renews VoiceVantage for the Eleventh Straight Year

Boston, Massachusetts. March 13, 2019) THC Technologies Corp a private corporation engaged in the global biometric solutions market, today announced it has experienced a further validation of its VoiceVantage™ voice verification software within the international financial services market.

THC CEO Frances Lynch said, “THC’s premier international financial services client has renewed its VoiceVantage™ enrollment for the eleventh straight year. THC provides the core proprietary voice verification solutions Partners deploy to secure software applications, often at military grade, for multiple security markets including the international financial services sector. THC and its Partners market voice activated solutions that advance client’s cyber security capabilities, increase client satisfaction and enhance organizational resilience.”

Tomas T. Wilkerson, THC’s VP of Marketing concurred saying, " Organizations in public education, financial services, healthcare, government and many other industries maximize performance and provide investment protection because THC and our partners deliver complete best-of-breed voice authentication solutions. We focus on designing, developing and deploying voice solutions with our partners sharing the common goal to create best-of-breed hardware and software configurations on which to deploy their industry specific solution."
